### **HUMAN AID SOCIETY**

H.O. - Bramaula  
Jammu and Kashmir

**Mr. Bashir Ahmad Mir**  
Chairman and Founder  
Human Aid Society, Baramulla

Dear friends, our experience of 25 years in this field has taught us well that our society has become so accustomed and our people want to take up professions which are directly affecting their children as they are now used to being able to provide for themselves without the risks of work.

Friends when such conditions or trends change in the society, it becomes the responsibility of the social organisation working in the society to formulate a policy within themselves that will keep charity as a part of it. While they can work on some projects for public bids so that the public can be fully supported, especially in order to deal with unemployment, it is the responsibility of the organisations/ institutions to find new ways and save and secure their young generation.

## FROM CHAIRMAN DESK

The members of this organisation must also know that for the Sustainable development of the nation, it has become necessary for the person to keep a close eye on the environment so that a clean environment can be created. In this regard the organisation has taken an initiative to save the environment and planted thousands of saplings in various, School, forest lands, public parks and at banks of streams and rivers and create resources for future generations to breathe a sigh of relief.

I would personally request those people who live in villages, towns and cities to establish their local Bait-u-al - Mals and help their needy people as they found eligible for their assistance. We believe that by working in this way not only the deserved person will be treated well but all those persons/ groups will be punished whom people are found collecting donations wrongly in their names.
