During the event, Chief Election Observer expressed their gratitude to the participating journalists for making the election a grand success. They emphasized the importance of strengthening 4th pillar of democracy and hope that the elected leadership will always remain sincere in highlight the genuine public as well the govt issues.

WHY UNO Sustainable Goal No.02 zero Hunger is relevant for J&K? 31- Agust 2024:

Jammu and Kashmir has a unique geographical position as compared to other states of India because it consists upon three major regions, JAMMU, LADAKH and KASHMIR. The Jammu province is considered hot, LADAKH is coldest hilly region and Kashmir is known as a beautiful valley surrounded by mountains on all four sides. The Jammu province is all time connected with the other states of India and it is also close to the central capital as compared to Ladakh and Kashmir provinces. The road and air traffic connectivity of Jammu region uninterrupted round the year while the road and air links connecting the Ladakh and Kashmir are often disconnected for weeks and months and due to the closure of the NH-44, the local population suffer a lot for food grains and other essential commodities. The market prices seem to be skyrocketing and poor people are being forced to die.

The farmers of Kashmir valley are hardly planting one crop in their fields due to harsh and chilly weather conditions and sometimes the un predicted rain and snow vanish their crops and it causes severe shortage of ration for local population. The prices of the ration exported from the other parts of the country also seen to be skyrocketing and the poor people are not able to bear it and become victims of hunger.

People of the whole world are aware of the fact that Jammu and Kashmir has been suffering from almost last 35 years and due to which not only our young generation has lost their lives but also a long line of widows and orphans has stood up and these orphan children and widows of the affected

families are facing difficulties to get two meals a day they are sometimes fed-up with the starvation and reach the verge of suicide or choosing an illegal path for themselves.

National and International Organizations are not very inclined to work in this Kashmir for restoring its glory which may be due to several reasons and in these situations the local NGO's is the only ray of hope for these hopeless people but it is worth to mentioning here that the local NGO's do not have enough financial recourse to help these people to any extent.

Human Aid Society despite its limited financial resources consistently deliver ration kits under its **"ZERO HUNGER PROGRAMME"** to BPL/ widow/ Orphans headed families at their door steps since from year 2018. The organization salutes all its local donors in general while its national and international funding partners in particular, who have continuously offered us their support without any discrimination of Caste, Creed, Color, region, religion and nation and we can confidently say that together we are rendering our selfless efforts for the sake of humanity in the world.

Hotel Samarkand Baramulla

Sheikhpura Rafiabab
